

INTERNATIONAL LINING TECHNOLOGY

AT ILT, OUR QUALIFICATIONS ARE WATERTIGHT.

International Lining Technology (ILT) is a Nevada-based company with a global reach that supplies and installs geosynthetic products anywhere there is a need for containment solutions that protect and benefit the environment. As an added service, ILT also maintains, repairs, and replaces all types of geosynthetic materials and installations, from compact municipal water storage facilities to huge mining installations. Over the years, ILT's products and services have been used to contain, close, and convey natural and industrial liquids and gasses of all types and descriptions. As a company, we have built our reputation lining and maintaining water reservoirs and serving the mining, agriculture, power generation, and solid and liquid waste industries. ILT'S founders have extensive experience installing and managing large domestic and international geosynthetic projects, while offering a high level of customer service and reliability to ensure your project will be completed safely, on time, on budget, and with the quality and value you expect and deserve.

BUT IT'S OUR PEOPLE WHO REALLY SEAL THE DEAL.

International Lining Technology's management and supervisors is our most valued asset, and collectively possess over fifty years of combined experience in the geosynthetic industry. Over the years, our team has worked on projects ranging from small single-lined ponds to multi-layered hazardous waste containment projects. Because of this experience, ILT's people are highly qualified to install and service a variety of geosynthetic materials in many different applications. ILT has a proven track record of successfully installing and servicing High Density Polyethylene (HDPE), Linear Low Density Polyethylene (LLDPE), and Reinforced Polypropylene (RPP), as well as complementary materials such as Geosynthetic Clay Liners (GCL), Geocomposites, Geotextiles, Geonets, Protective Covers, and Ballast Systems. The projects listed below are our most recent work, and they underscore the pride and professionalism that ILT brings to every project we undertake.

OUR PEOPLE PUT IT ALL ON THE LINE FOR YOU.

Michael Salley CEO

Michael Salley has been in the geosynthetic industry since 1989 and has extensive training and experience in the field, ranging from installation and estimating of geosynthetic materials to construction and business management. His prior experience with two of the geosynthetic industry's largest international manufacturing and installation companies has given him the contacts, access, and expertise to effectively guide International Lining Technology in a very competitive marketplace. Michael manages the company's day-to-day operations from the company's headquarters in Reno, Nevada.

Sean Gill Estimating Manager

Sean Gill started working in the geosynthetic industry as a Quality Control Technician in 1995. After a year in the field he moved into the office to begin his career in estimating. Sean has mastered this science by his proven track record of many secured and successful projects of diverse industries, across multiple continents. Sean's experience and quality of work is an invaluable asset to International Lining Technology.

Todd Clark Installation Coordinator

Todd Clark has 7 years experience in the geosynthetic industry. He started in the field working on geomembrane installations, and has extensive experience working on landfills, wastewater treatment ponds, leach pads, process ponds, and gas recovery systems. He has mastered the installation of all types of materials from HDPE, LLDPE, RPP, UPP and XR5. Todd is also a valuable source of information and expertise on the practical application of proposed construction methods, and he is a vital member of the ILT team.

THE TECHNOLOGY AND TOOLS TO DO THE JOB.

It's a fact of life. To get the job done right, on time, and on budget, you've got to have the right equipment, and plenty of it. That's why, for field installation work, ILT owns a wide assortment of installation and repair equipment for both large and small jobs. What's more, our in-house maintenance facility provides quality service and upkeep of our equipment, so we're never left empty-handed. When you're in the market for quality and reliability, think of ILT. By owning all of our own equipment and allocating the optimal mix of equipment and human resources to each of the projects we undertake, we consistently deliver the service our clients expect and deserve.

A FEW OF THE RECENT PROJECTS WE'VE WRAPPED UP.

Project Name: Simplet Location: Hermiston, OR Application: Waste Water Treatment Plant Material Type: 60 mil smooth & Tex HDPE Area: 750,000 sf Contact Person: Wayne Ernst Phone No: 208-890-5606 Installation Date: Oct. 2002	Project Name: Chehalis, WA Location: Chehalis, WA Application: Containment Berm Material Type: 60 mil HDPE Area: 127,800 sf Contact Person: Pat Sanborn Phone No: 800-796-6868 Installation Date: Feb. 2003
Project Name: Hunter Creek Reservoir Location: Reno, NV Application: Reservoir Liner Repair Material Type: 60 mil HDPE/60 mil 3 ply RPP Area: 400,000 sf Contact Person: Scott Benedict P.E. Phone No: (775) 834-8027 Installation Date: Jan. 2003	Project Name: Highland Reservoir Location: Reno, NV Application: Reservoir Cleaning Material Type: 45 mil 3 ply RPP Area: 350,000 sf Contact Person: Scott Benedict P.E. Phone No: (775) 834-8027 Installation Date: Jan. 2003
Project Name: Hunter Creek Reservoir Location: Reno, NV Application: Reservoir Cleaning Material Type: 60 mil 3 ply RPP Area: 400,000 sf Contact Person: Scott Benedict P.E. Phone No: (775) 834-8027 Installation Date: Nov. 2002	Project Name: Carson Town Center Location: Carson, CA Application: Methane Barrier Material Type: 60 mil HDPE/16 oz Textile Area: 30,000 sf Contact Person: Daniel Thompson Phone No: 949-598-1900 Installation Date: June 2003
Project Name: Sacramento Reg. WWTP Location: Elk Grove, CA Application: Waste Water treatment Plant Material Type: 12 oz Geotextile Area: 4,120,000 sf Contact Person: Nick Jones Phone No: 209-333-1116 Installation Date: Aug. 2002	Project Name: Tasco Location: Paul, ID Application: Vertical Lagoon Expansion Material Type: 60 mil HDPE Area: 90,000 sf Contact Person: Pat Sanborn Phone No: 800-796-6868 Installation Date: Nov. 2002

<p>Project Name: Warehouse Pad Location: San Pedro, CA Application: Methane Barrier Material Type: 60 mil HDPE Area: 15,000 sf Contact Person: Asher Grimes Phone No: 562-432-1304 Installation Date: April 2003</p>	<p>Project Name: Huntington Beach Condos Location: Huntington Beach, CA Application: Methane Barrier Material Type: 60 mil HDPE Area: 10,000 sf Contact Person: Douglas Butler Phone No: 310-505-6339 Installation Date: July 2003</p>
<p>Project Name: Cargill Plant Location: High River, Calgary, Canada Application: Gas Recovery Floating Cover Material Type: 80 mil HDPE Area: 160,000 sf Contact Person: Al McRae Phone No: 780-451-7239 Installation Date: Sept. 2003</p>	<p>Project Name: McCloud Landfill Location: McCloud, CA Application: Landfill Closure Material Type: 60 mil HDT/32 oz Geotextile/ 16 oz Geotextile Area: 590,000 sf Contact Person: Roger Cummins Phone No: 530-842-8250 Installation Date: October 2004</p>
<p>Project Name: Cross Road Landfill Location: Yukon, Canada Application: Landfill Cell Material Type: 60 mil HDPE Area: 350,000 sf Contact Person: Al McRae Phone No: 780-451-7239 Installation Date: Sept. 2003</p>	<p>Project Name: North Dakota Gas Location: Bullah, ND Application: Containment Pond Material Type: 60 mil HDPE/ Geonet Area: 525,000 sf Contact Person: Douglas Phair Phone No: 406-232-1680 Installation Date: Nov. 2002</p>
<p>Project Name: Burlington Northern Location: Spokane, WA Application: Landfill Closure Material Type: 40 mil HDPE/ SS Composite Area: 240,000 sf Contact Person: Pat Sanborn Phone No: 800-796-6868 Installation Date: Nov. 2002</p>	<p>Project Name: Eagle Rock Golf Course Location: Billings, MT Application: Ornamental Lakes & Ponds Material Type: 40 mil HDPE Area: 400,000 sf Contact Person: Sean Coffin Phone No: 406-3229 Installation Date: June 2002</p>
<p>Project Name: American Crystal Landfill Location: Minnesota Application: Landfill Cell Material Type: 60 mil HDPE Area: 100,000 sf Contact Person: Sean Coffin Phone No: 406-233-3229 Installation Date: Sept. 2002</p>	<p>Project Name: Hardysti-Karvens Location: Edmonton, Can Application: Waste Water Pond Material Type: 60 mil HDPE/Geonet Area: 1,200,000 sf Contact Person: Al McRae Phone No: 780-451-7239 Installation Date: Sept. 2003</p>
<p>Project Name: Q & D Location: Reno, NV Application: Pond Liner Repair Material Type: 60 mil HDPE Area: 2,500 sf Contact Person: Arron Werner E.I Phone No: 775-786-2677 Installation Date: Sept. 2003</p>	<p>Project Name: MWD Mills Filtration Plant Location: Riverside, CA Application: Floating Cover Cleaning Material Type: 45 mil 3 ply RPP Area: 500,000 sf Contact Person: Robert Velazquez Phone No: 909-780-2576 Installation Date: May 2003</p>
<p>Project Name: A.S King Landfill Location: Minnesota Application: Landfill Cell Material Type: 60 mil HDPE Area: 200,000 sf Contact Person: Sean Coffin Phone No: 406-233-3229 Installation Date: Aug. 2002</p>	<p>Project Name: Bemidji Landfill Location: Minnesota Application: Landfill Cell Material Type: 60 mil HDPE Area: 300,000 sf Contact Person: Sean Coffin Phone No: 406-233-3229 Installation Date: Sept. 2002</p>

<p>Project Name: CCS Silverberry Landfill Location: Fort St John, BC, Canada Application: Landfill Cell Material Type: 60 mil HDPE/16 Oz Geotex Area: 382,000 sf Contact Person: Al MC Rea Phone No: 780-451-7239 Installation Date: Nov. 2003</p>	<p>Project Name: Hazco NSW Pond & Liner Location: Rycroft, Alberta, Canada Application: Landfill Cell & Pond Material Type: 60 mil HDPE/SS Geocomp Area: 280,000 sf Contact Person: Al Mc Rea Phone No: 780-451-7239 Installation Date: Oct-2003</p>
<p>Project Name: Agrodelicias de la Baja Sur Location: La Paz Baja California Application: Irrigation Pond Material Type: 36 mil 3 Ply RPP Area: 16,900 sf Contact Person: Hain Ram Phone No: 011-5612-125-7297 Installation Date: Aug. 2003</p>	<p>Project Name: Paper Mill Location: Meadow lake, Sk, Canada Application: Waste Water Pond & Cap Material Type: 36 mil PCV Area: 600,000 sf Contact Person: Al Mc Rea Phone No: 780-451-7239 Installation Date: Sept. 2003</p>
<p>Project Name: Turf Construction Location: Thousand Oaks, CA Application: Drainage Basin Filter Material Type: 45 mil PVC Area: 8,000 sf Contact Person: Pete Phone No: 805-482-9876 Installation Date: June 2003</p>	<p>Project Name: Sherco Cap Location: Mankato, MN Application: Landfill Cell Material Type: 60 mil HDPE Area: 500,000 sf Contact Person: Sean Coffin Phone No: 406-233-3229 Installation Date: July 2002</p>
<p>Project Name: Neal Road Location: Chico, CA Application: Sanitary Landfill Lining Material Type: 60 mil HDPE Area: 324,000 sf Contact Person: Mark Johnson Phone No: 530-868-1937 Installation Date: October 2004</p>	<p>Project Name: Trade West Location: Las Vegas, NV Application: Surge Pond Liner Material Type: 60 mil HDPE Area: 210,661 sf Contact Person: Junior Dalton Phone No: 702-346-2757 Installation Date: October 2004</p>
<p>Project Name: Gopher Hill Location: Quincy, CA Application: Landfill Closure Material Type: 60 mil HDPE/Geocomposite Area: 515,956 sf Contact Person: Rick Joy Phone No: 530-832-5760 Installation Date: August 2004</p>	<p>Project Name: Cottonwood Grove Farms Location: White River, SD Application: Floating Cover Material Type: 60 mil HDPE Area: 286,161 sf Contact Person: Terry Eenhuis Phone No: 701-640-2832 Installation Date: November 2004</p>
<p>Project Name: Omai Bauxite Mine Location: Georgetown, Guyana Application: Pond Liner Material Type: 80 Mil Smooth HDPE Area: 150,000 sf Contact Person: Michael Mathieson Phone No: 702-353-2607 Installation Date: December 2004</p>	<p>Project Name: Woodland North Course Location: Nipomo, CA Application: Golf Course Lakes Material Type: 30 mil PVC Area: 970,344 sf Contact Person: Dan Garson Phone No: 805-343-9451 Installation Date: February 2005</p>
<p>Project Name: Olinda Alpha Landfill Location: Brea, CA Application: Storm Drain Material Type: 60 Mil Textured HDPE Area: 40,000 sf Contact Person: Alan Perkovich Phone No: 714-835-6820 Installation Date: August 2004</p>	<p>Project Name: Desert Willow Location: Palm Desert, CA Application: Pond Liners Material Type: 30 Mil PVC Area: 105,000 sf Contact Person: 760-836-1129 Phone No: Emir Kocadilly Installation Date: September 2004</p>

Project Name: WRS Remediation Location: Fort Collins, CO Application: Temporary Containment Material Type: 40 Mil HDPE Area: 87,000 sf Contact Person: Tom Folley Phone No: 970-593-1894 Installation Date: November 2004	Project Name: Denner & Eberle Vineyards Location: Paso Robles, CA Application: Ponds Material Type: 40 MIL HDPE Area: 27,400 sf Contact Person: Gary Ellison Phone No: 805-597-7400 Installation Date: June 2005
Project Name: Sand Dunes Location: Moses Lake, WA Application: WWTF Material Type: 60 Mil HDPE Area: 80,000 sf Contact Person: Nigel Stevenson Phone No: 509-586-1104 Installation Date: March 2005	Project Name: Silver State Industries Location: Carson City, NV Application: Pond Liner Material Type: 60 Mil HDPE Area: 75,955 sf Contact Person: Tim Bryant Phone No: 775-887-9331 Installation Date: April 2005
Project Name: Reardan Location: Reardan, WA Application: WWTF Material Type: 60 Mil HDPE & Geotextile Area: 212,000 sf Contact Person: Jeff Halme Phone No: 509-725-1200 Installation Date: May 2005	Project Name: Potlatch Location: Potlatch, ID Application: Potable Water Reservoir Material Type: 45 Mil Polypropylene Area: 30,000 sf Contact Person: Bob LaFontaine Phone No: 208-476-3617 Installation Date: May 2005
Name: Etowah Location: Dawsonville, GA Application: Storage Pond Material Type: 36 Mil Polypropylene Area: 182,000 sf Contact Person: Josh Moon Phone No: 706-643-1524 Installation Date: May 2005	Project Name: Highland Reservoir Location: Reno, NV Application: Floating Cover/Liner System Material Type: 45 mil 3 ply RPP Area: 220,000 sf Contact Person: Scott Estes Phone No: (775) 834-8000 Installation Date: Jan. 2001
Name: Leadville Remediation Cell Location: Leadville, CO Application: Remediation Cell Material Type: 60 MIL HDPE & 12 oz Geotextile Area: 156,360 sf Contact Person: J.R. Bonser Phone No: 970-669-2277 Installation Date: September 2005	Project Name: Sac. Natl. Wildlife Refuge Location: Willows, CA Application: Sewage Lagoon Evap. Pond Material Type: 60 MIL HDPE & 10 oz Geotextile Area: 96,373 sf Contact Person: Mark Johnson Phone No: 530-868-1937 Installation Date: September 2005
Name: North Mississippi Fish Hatchery Location: Oakland, MS Application: Holding Ponds Material Type: 45 MIL RPP & Geotextile Area: 598,811 sf Contact Person: Joe Frazier Phone No: 662-455-6111 Installation Date: October 2005	Project Name: Rising Star Mine Location: Shasta Lake, CA Application: Pond Liner Material Type: 60 Mil HDPE, Geocomposite, Geogrid & 30 MIL LLDPE Area: 172,473 sf Contact Person: Jeff Plum Phone No: 530-529-1996 Installation Date: October 2005
Name: San Miguel Winery Pond Location: San Miguel, CA Application: Pond Material Type: 40 MIL HDPE Area: 49,000 sf Contact Person: Gary Ellison Phone No: 805-597-7100 Installation Date: August 2005	Project Name: Denio Tailings Storage Cell Location: Denio, NV Application: Storage Pond Material Type: 60 MIL HDPE Area: 125,244 sf Contact Person: Earl Harrison Phone No: 775-853-4919 Installation Date: December 2005

Name: Portola Temporary Cover Location: Portola, CA Application: Landfill Material Type: 30 MIL HDPE Area: 380,120 sf Contact Person: Jerry Hayes Phone No: 530-493-2679 Installation Date: November 2005	Project Name: Humboldt Road Burn Dump Location: Chico, CA Application: Closure Cap Material Type: 60 MIL HDPE Area: 285,951 sf Contact Person: Jeff Pluim Phone No: 530-529-1996 Installation Date: August 2005
Name: AEPCO LVWP Location: Cochise, AZ Application: Storage Pond Material Type: 45 MIL Polypropylene Area: 960,097 sf Contact Person: Mike Clafin Phone No: 480-837-3684 Installation Date: September 2005	Project Name: San Miguelito Aerated Lagoon Liner Location: Avila Beach, CA Application: Wastewater Pond Material Type: 60 MIL HDPE Area: 16,000 sf Contact Person: Bryan Seifert Phone No: 805-595-2348 Installation Date: December 2005
Name: Katherine's Landing Location: Lake Mead, AZ Application: WWTF Material Type: 36 MIL Polypropylene Area: 105,000 sf Contact Person: Jan Harris Phone No: 702-253-2717 Installation Date: September 2005	Project Name: Location: Application: Material Type: Area: Contact Person: Phone No: Installation Date:
